

# Origiin IP Solutions *LLP*

securing innovation ...

## What we Offer

In today's world, quality research and innovation are seen as the key differentiating factors that determine the market value of a company. As the emphasis today has graduated from cost arbitrage and quality deliverables to R&D and IP creation, it is critical for any company to understand the importance of Intellectual Property Rights (IPR) and add value to their businesses.

We, at Origiin, provide complete solutions and services to knowledge based companies and academic institutions, enabling them to know the legal framework and identify, protect and manage their IP in an effective manner.

## Value Proposition

Origiin is a diverse group of professionals with a common set of core values. Transparency, honesty, responsiveness to our Customer's needs and requirements are the basic tenets on which Origiin is founded.

We consider these as extremely critical components for long term successful business relationships. We are committed to serve our clients by providing cost-effective, timely and high-quality services.

## Our Team

Origiin has a team of skilled patent agents and attorneys from various areas of technology.

We have so far provided quality services to a large number of companies from diverse areas of technology such as IT, software, electronics & telecommunication, engineering, pharmaceuticals, telemedicine and biotechnology etc.

## Our Promise

We understand how critical is awareness, protection of IP and promise to make our customers feel "safe and secure" with our quick, cost-effective and quality services. We enable clients to realize long term value and benefits of IP by identifying, securing, exploiting and managing it in best possible manner.
